

MONEY POWER TO CRUSH 'FRISCO GRAFT CRUSADE

Prosecutor Declares Big Man Indicted Seeks Aid of Bankers to Dodge Law.

SAN FRANCISCO, May 31.—Assistant District Attorney Francis Heney, head of the graft prosecution, in a statement just issued outlines the policy of the men who have made possible the indictment of nearly a score of San Francisco wealthy capitalists, denouncing as malicious falsehoods the charges which have been made that the prosecutors are influenced by political motives and openly charges that some of the most powerful financial interests of the country have been brought into the battle on the side of the alleged bribe-givers.

Heney declares that the greatest crisis in the graft exposure is now at hand and that the greatest crisis in the history of San Francisco goes side by side with it. He charges that President Patrick Calhoun, of the United Railroads, has sought the aid of the wealthy bankers and merchants of the city to free him from the clutches of the prosecution and prevent his having to pay the penalty for his alleged crimes.

A meeting was held a short time ago, he says, at which Calhoun called together a number of the heads of the largest San Francisco banks and sought their aid through a thinly veiled request for backing in the carrying on of the car strike.

The powerful influences which he set at work to injure the prosecution, Heney says, have been hampering the prosecutors to a certain extent, as they have raised a sentiment of doubt as to the real motives behind the investigation, and he calls upon the citizens of San Francisco to give their fullest assistance to the work that is still to be done.

Admitting that the sixteen confessed bribe-takers on the Board of Supervisors have been promised immunity from prosecution, Heney declares that this step was essential to the carrying out of the work at hand. He stated that every effort to gain legal proof of corruption and bribery had failed until the confessions were secured from the supervisors, and that to secure these, the promise of immunity was given.

For answer to the cry which, he said,

had been raised by the capitalists in this city that the supervisors will be punished, he points out that while the prosecutors were laboring for months to obtain proof concerning the bribes, none of the alleged bribe-givers came forward to their assistance, but that, as soon as they became involved, they raised the cry of "punish the bribe-takers and let us go free."

Heney asks the pertinent question: "Which is the man who should be punished for the crime if one must be allowed to go free—the confessed bribe-taker or the confessed bribe-giver?"

"Let us show," he continues, "that no man, however wealthy he may be, is greater than the law. Let us prove that the power of wealth cannot corrupt our courts and prevent the carrying out of justice."

LONGSHOREMEN READY TO SETTLE STRIKE.

Men Now Ready to Listen to Proposition From the Steamship Companies.

There will be a mass-meeting of striking longshoremen this afternoon to hear the report of the committee that has been in conference with representatives of the International Mercantile Marine Company, and it is believed that an agreement will be reached by which the men will go back to work on the docks.

At this conference the officials said that nothing would be considered until the strike is declared off, and many of the men are in favor of calling the strike and then submitting their grievances to a board of arbitration. Strike Leader Connors is in favor of holding out for the original demands.

Connors says that there is likely to be an extension to the ranks of the strikers to-day for the reason that the Panama and Quebec lines have not kept all their promises and that the longshoremen will only be ordered to strike again.

40,000 MINERS AWAIT CALL TO GO ON STRIKE

Soft Coal Men Resent Use of Labor and Wage Saving Machines.

PITTSBURG, May 31.—A bitter war is impending between the coal operators and miners in the Pittsburgh district over the introduction of the new automatic dumping machines at the mines. The workmen to-day delivered an ultimatum demanding the removal of the labor-saving machines, and unless the demand is agreed to by to-morrow morning 40,000 men in the district will, it is said, go on strike.

The operators, headed by Francis L. Robbins, President of the Soft Coal Trust, have warned the miners to "go slow."

"If the operators are forced by the action of the workmen to shut down,"

says Robbins, "the strikers may be certain that the mines will never be reopened with the old force. Every man who strikes will be barred from future employment in the mines."
